## Bite of Art

LIMITED SPACE!

## Create with Clay

Come join our fantastic Create with Clay Class! This session we will be learning the four different ceramic handbuilding techniques to make our favorite foods into functional works of art.

Create a burger with extra fixin's into a scrumptious coil jar. Of course, we won't forget the side of fries, that will hold all your pencils made out of slab. We will also be making a bowl that looks like your favorite spherical fruit, whether it's a watermelon, a lime, a kiwi, or even a dragon fruit!

So come join us and get a Bite into Art that's really satisfying.

### REDUCED TUITION!

Join us for the session as the parent volunteer and get 75% off your child's tuition
