Grade _____

The problem I am solving is Problem _____

R-E-C Problem Solving Strategy

R = Restate the question that you are trying to solve.

E = Explain the steps that you took to solve the problem.

You can use words, pictures and numbers to help you explain the steps. This step is explaining your thinking which is a very important part of solving problems. You may attach more paper if needed.

C = Conclude

This is the answer to the problem.
